Homepage Styles

By default, Template use Index for Homepage first, but you have 5 different Homepage styles and also unlimited variations, just use your creativity.

Basic structure:

1. Left side you can find Sidebar (Aside) in some great widget stuff

Trending – Categories -

2. In center display all Popular Articles (Posts) in Grid view
3. Right hand side we use Subscribe box and also a banner space
4. Below begin Tabs section with 3 demo tabs and six Posts
5. After this again have a sidebar at left, include great stuffs:

Featured with thumb – Rankings – Tags – Top Review

6. Next to have a large thumb called "Editors choice" also have some small articles
7. Below currently viewing and Review carousel
8. Channels carousel
9. Footer section

Other styles:

You can variable all elements in Template, so our 5 homepage styles is not the final option – you have unlimited versions if you would like.

Channels

Small interesting section is Channels, here you can add dedicated Thumbnail for you special channels of videos, collect all videos from Authors or Types/Categories.

Basic & Special Pages

You can set up some variants of Homepage and other pages styles in Muvee Template. You can find all sections in HTML files, it .

Basic:

1. Single Page & Post pages

You can select lot of pages and post type templates with sidebar, no-sidebar- video or image Featured, etc.

2. Category templates

We have 3 different category styles. Grid and listing with excerpts, you can easy to change this variables with Bootstrap Grid functions (class="col-md-X").

3. Gallery

Built 2 version of gallery – boxed and fullwidth

Special Pages

1. Carousels

We show all carousels what we use in Template for Reviews, Posts, Channels.

2. Author

All posts has Author, so we made this page for presentation to Authors Bio

3. Review

Video review page is most special template, with lot of interesting functions and CSS styles. (Ratings, Progress, Icons for views, Likes, Subscribes, Followers, etc.)

4. Login

Here you can create your own Login page, include Login via Social or Account.

5. 404

Special page if your user goes wrong way.

Fonts

We use Free Google Webfonts (Roboto, Roboto Condensed', sans-serif).
Also use Fontawesome for amazing Font icons.

Google Font – Roboto import to CSS and apply all Font-Family inline.
www.google.com/webfonts
www.fontawesome.com

Scripts

We built all fancy Carousel with standard Bootstrap jquery script.
<http://getbootstrap.com/javascript/#carousel>

The lightbox Photo and Video play we used Lity free Lightweight, accessible and responsive lightbox.
Please take a look about Lity credit: <http://sorgalla.com/lity/>

CSS

(screen.css)

We made clear CSS files as we can. Also include color variables in first section:

```
:root {  
  --primary-color: #265bb9;  
  --secondary-color: #5995ff;  
  --third-color: #0d0d0d;  
  --primary-bgcolor: #0d0d0d;  
  --ratingstars-color: #ffb109;  
}
```

You can find 4 Color Template in Downloaded Folder (Main Files → Templates → Blue, Aqua, Orange, Pink)

So you can modify easily any colors you want. (of course you must to redesign the background images and logos.)
